

## DMMS IEC 62031:2018 RLV Redline version LED modules for general lighting - Safety specifications

### Scope

This document specifies general and safety requirements for light-emitting diode (LED) modules:

- non-integrated LED modules (LEDni modules) and semi-integrated LED modules (LEDsi modules) for operation under constant voltage, constant current or constant power;
- Integrated LED modules (LEDi modules) for use on DC supplies up to 250V or AC supplies up to 1000V at 50Hz or 60Hz.

LED modules within the scope of this document can be integral, built-in or independent. This document is not applicable for LED lamps. NOTE The performance requirements for LED modules are specified in IEC 62717.
